About M&M Plastics

M&M Plastics

Your professional custom molding specialist. Dedicated to superior quality and efficient service at the most economical price.

M&M Plastics manufactures precision custom and 'family' injection molded plastic parts of the highest quality, in a wide range of industries.

At M&M, we pride ourselves in providing unparalleled service to each and every customer. Each order, regardless of size, is carefully monitored beginning with design and continuing through tooling and production. This process receives the same dedication to excellence and attention to detail that has established M&M with its outstanding reputation, both locally and nationwide.

It is our objective to develop a close working partnership with our customers to ensure only the highest quality products, delivered on time at the most competitive prices.

Our expert team of professionals analyze our customer's requirements and provide first class service through innovative combinations of design concepts and manufacturing techniques. In addition, M&M's state of the art tooling operations provide custom tooling to meet the most exact standards.

M&M produces custom and 'family' molded components and items for the nation's most respected manufacturers in the window, door and screen, lamp shade, plastic storage systems, electronics, automotive, household appliance and accessories, health and beauty aid and merchandise security industries, in a variety of engineering grade and general purpose type resin.
